

“GO FOR GOLD” FUNDRAISER

PROPOSAL

2013 - 2014

A Lucrative Fundraising Opportunity

How a “Go For Gold” Fundraiser Works

A “Go For Gold” Fundraiser is a lucrative fundraising system for churches, schools, athletic teams, boosters, houses of worship, charities, non-profit organizations and other deserving organizations.

In this tough economic climate, it is becoming increasingly more difficult for worthy organizations, that rely on donations, to get by. **Karatbars International** has a solution, by offering **Automatic Monthly Gold Savings Plans**. Imagine...the patrons of your fundraiser will be able to start protecting the value of their savings, hedging against devaluing paper money by diversifying into **GOLD!** Then, **Karatbars International** will do generous revenue sharing with the organization. (Avg. 20% of **recurring monthly deposits!**)

You will be impressed with just how easy this fundraiser is and how lucrative it can be when promoted well. It is a real win-win situation as the supporters are happy with having their savings protected with **gold** and the organization makes money too!

Why Buy Gold?

GOLD is the best form of savings you can have because, as money it maintains its purchasing power over long periods of

time. Compare, to the US Dollar which has lost 98% of its purchasing power in the last 100 years.

2,000 years ago when Christ walked the earth, in ancient Rome you could buy the finest toga, leather belt, and high-quality leather sandals all for 1oz of pure gold.

In 1923, an ounce of gold was a little bit over \$21, and for that amount you could still buy a tailored suit, leather belt, and high quality leather shoes.

Fast forward to today, an ounce of gold is over \$1,200. So for an ounce of gold I can **STILL** purchase a tailored suit, leather belt, and high quality shoes.

Fast forward to the 2014 marketplace... **\$21 couldn't even buy a leather belt!**

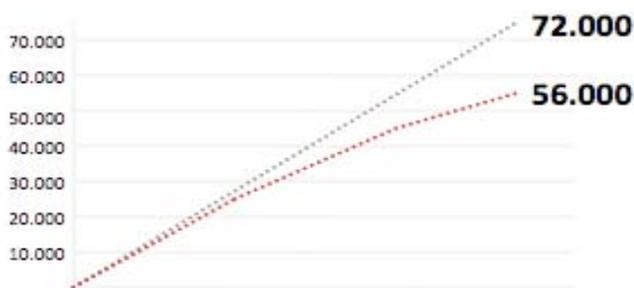

This is why prudent people **SAVE IN GOLD!**

Another equally important positive is that demand is growing by leaps and bounds, especially in the emerging countries such as China, India and South Africa. As hundreds of millions of people worldwide become more affluent, they're buying **gold**.

International central banks have also become big buyers, further increasing demand. Rather than just holding cash in deteriorating dollars, they're buying more **gold** for their reserves. They see what's happening on the world stage and they obviously don't like it.

CASH LOOSES VALUE DUE TO INFLATION

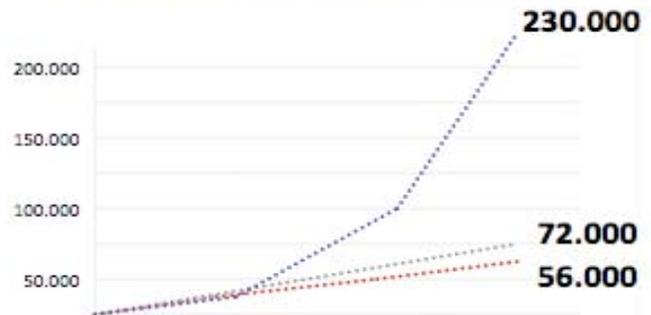

STORED CASH \$300 PER MONTH
- FOR THE PAST 20 YEARS = \$72.000

DUE TO INFLATION, THE PURCHASING POWER WILL ONLY BE JUST \$56.000

GOLD IS A STORE OF VALUE

EXCHANGED \$300 PER MONTH INTO GOLD - PAST 20 YEARS = \$230.000

THIS IS WHY EXPERTS RECOMMEND US TO EXCHANGE FOR GOLD.

Gold vs. Paper

Which would you rather save?

We can all agree that it is important to maintain long-term savings. The question is: where should we put our savings?

In January 1971, if you had started saving \$400 a month in your regular savings account then by January 2011 you would have almost **\$150,000 in your account**.

However, if you had been converting that same \$400 a month into gold from January 1971 to January 2011, then your gold savings account would be worth **over \$1,000,000!**

So, which would you rather save?

Why Karatbars?

1. Karatbars GOLD is produced at a LBMA approved refinery in Turkey
2. Karatbars offers privately-issued 1-gram gold bars in 1, 2.5 & 5 grams. Unlike government-issued coins, these cannot be confiscated. This means when you purchase them, you own them directly and outright. Many bullion coins are government-issued coins, meaning when you purchase them, you are the bearer only while the issuing government is the owner.
3. All Karatbars gold has the smelter Assayer stamp, signifying the highest level of purity.
4. Karatbars also has the rare ability to produce **BRANDED GOLD** cards for your organization
5. Therefore, if you are a religious institution, Karatbars can produce **BRANDED GOLD** cards for you, making them religious collectibles. This is an important point in that, gold and silver bars/coins of religious collectability, are legally non-confiscatable under UN resolutions.
(Pope John Paul II Karatbars issued by the Vatican)

6. Karatbars gold savings plans are affordable and practical for the ordinary person.
7. There is NO ADMINISTRATION for the organization
8. There is NO COST to the organization
9. Generous Profit Sharing
